

K-love radio is having a huge impact in my community. Its positive message has sustained my family, its public service announcements have alerted us to events in the Phoenix area that are free for my family to attend. There isn't another radio station like it. I especially enjoy listening to K-love from different stations as I travel on vacation and my son listens to his 'hometown' station K-Love even though he is college away from home. Please DON'T mess with how K-Love is transmitted. We would be lost without K-Love.
